

**IN THE SPECIFICATION**

**Please amend the paragraph beginning on page 48 as follows:**

~~Provided is a~~A parking assisting device including: an image capturing unit for capturing at least an image behind the vehicle; a monitor ~~arranged near a driver seat of the vehicle~~ for displaying the image obtained by the image capturing unit; a yaw angle detecting unit for detecting a yaw angle of the vehicle; a guiding unit for outputting the guidance information ~~regarding the driving operations~~ to the driver; and a controller for comparing a prescribed yaw angle corresponding to a predetermined vehicle position with the yaw angle of the vehicle detected by the yaw angle detecting unit, to identify a current position of the vehicle, and providing the guidance information via the guiding unit while displaying at least one of a predicted path and a predicted parking position on the monitor so as to overlap with the image obtained by the image capturing unit to enable the driver to confirm whether ~~or not~~ the vehicle can be parked into the target parking space ~~by continuing the driving operations in accordance with the guidance information.~~
